March 14, 2022

Dear Families and Friends of our Residents,

I hope you are doing well. Did you enjoy a short break in the weather this past weekend? It was nice, but we may have to go through some more winter days before we get consistent warmer days 😊. It's coming though...

On that note, we also have some warmer news, GREAT news! The last two weeks everyone at Home tested negative for COVID, which means that those that are fully vaccinated and have had a booster don't need to test anymore. The mandate for testing is still in place for those that are either non-vaccinated or vaccinated without the booster. As far as the mask mandate, we still have to obey by the Health Department guidelines, despite the mandate being lifted on the outside. Thank you for being so cooperative and respectful when visiting your loved ones at HOME and following the current directives. We know that not everyone agrees with the rules but we all agree on keeping our residents safe, and we thank you for your understanding.

Wishing you a beautiful week ahead.
